

Smart Tiles. Quick Start Guide

1. Overview

The Smart Tiles web part allows you to create visually appealing navigation menus for your SharePoint site. You can customize tiles to represent various pages or sections, enhancing user experience and site navigation.

2. Prerequisites

- Ensure you have Tenant Admin permissions in your SharePoint Online environment.
- Confirm that you are using SharePoint Online, as Smart Tiles does not support on-premises versions.

3. Install the Smart Tiles

- Download the zip file (*.zip) of the product and unpack it.
- Navigate to your SharePoint App Catalog.
- Click on the Upload button and select the extracted .sppkg file.
- After uploading the package follow the prompts to complete the installation.

4. Activate the License

- After installation, you need to assign a license to your SharePoint instance.

5. Verify Installation

- Once installed, the Smart Tiles web part will appear in the web part gallery. You can now add it to your pages.

6. Adding Smart Tiles to a Page

- Open the page where you want to add the Smart Tiles in edit mode.
- Click the + icon to add a new web part.
- Search for "Smart Tiles" and select it to add to your page.

Following these steps will help you successfully install and activate the Smart Tiles web part in your SharePoint Online environment.
